

REGATEC 2017

Bringing science, technology and industry together

Invitation to participate as an Exhibitor at 4th International Conference on Renewable Energy Gas Technology 2017

Conference information

The 4th International Conference on Renewable Energy Gas Technology will be held at the 4 star hotel and congress centre, Parchi del Garda, Pavenlo (Verona), Italy, 22-23 May 2017. The conference is organized by Institute for Biogas, Waste Management & Energy and Renewable Energy Technology International AB in collaboration with Consorzio Italiano Biogas e Gassificazione.

The conference covers the latest advances in thermochemical and microbial conversion of biomass/waste to biomethane, CHP, Power-to-gas, cryogenic upgrading and/or liquefaction. The technical and industrial focus of the conference ensures a good mix of both scientific R&D and real life experiences of operating demo and commercial plants. The targets with the conference are to showcase the latest advances, to spark new insights and ideas as well as to establish cooperation and commercial contacts. Target group for the conference are primarily actors who work with biomethane through anaerobic digestion and/or gasification and Power-to-gas such as technology developers and suppliers, gas distributors, energy companies, filling station operators, municipalities, local waste management companies, captive fleet operators, farmers, researchers and consultants as well as authorities, decision makers and politicians.

Presentations will be given in both plenary and parallel sessions by leading experts and prominent industrial representatives. In addition there will be a poster session and an exhibition in conjunction with the conference.

More information about the conference is available at the conference website: www.regatec.org

Organizers

Prof. Frank Scholwin

Information about exhibition

The exhibition will take place on the 22-23 May 2017. Coffee will be served in the exhibition area to give plenty of time for all conference participants to see the exhibition.

The exhibitor fee is 1,500 euro (excl. VAT) and includes:

- Free participation at conference including coffee/lunches, the gala dinner and a printed copy of the conference proceedings for two people.
- Each company that signs up for the exhibition will be given an area of 2 x 1.5 m. If more space is needed, each additional 2 x 1.5 m costs 300 € (excl. VAT).
- Exhibitor's logotype including a web link will be presented at the conference website.
- Table and a chair can be borrowed free of charge.
- Electricity (bring your own extension cord) and cleaning

Loyalty discount and specific requests

Exhibitors at the previous REGATEC who sign up no later than 31st of December 2016 receive a 10% loyalty discount on the exhibitor fee. For further details and specific requests please contact Jörgen Held, phone +46 (0)723-182 582, email jorgen.held@renewtec.se

Exhibitor form

Signing up as an exhibitor is binding. The exhibitor fee will be invoiced when the signed exhibitor form below is received. In case the conference is cancelled 80% of the exhibitor fee will be refunded. Exhibitors are responsible for sending a company logotype and a web link to be included at the conference website.

We want to be an exhibitor at the REGATEC 2017 conference:

Company: _____

Contact person: _____

Invoice address: _____

Purchase order nr
or reference nr _____

VAT no: _____

Phone: _____

E-mail: _____

Date and signature: _____

Please send by mail to:
Renewable Energy Technology International AB
Skarpskyttevägen 10 D
SE-226 42 Lund
Sweden

or scan and send the exhibitor form (page 2) by email to jorgen.held@renewtec.se
